

Tau Neutrino Detection via GNNs

Neutrino Classification

GNN Classifier

- Solidify understanding of electron decay and the three-flavour paradigm
- Trained NuGraph2
- Implemented architectural modifications to improve performance.

Generative Gear Design *work in progress*

Data Collection

Scraped online gear repository

Cleaned DXF samples

Curated 10,000+ dataset of description-DXF pairs.

Model Architecture

Series of Convolutional Networks

Highly pruned LLM
